

GARDENING TIPS

Here are the tips we received from our Instagram:

- Don't forget to mulch!
- Use a UV light at night to find tomato hornworms for easy removal!
- Grow what you eat

More Gardening Tips:

- Install your garden near a water source.
- Start with great soil!
- Check your "Hardiness Zone" to find out what you can grow in your area.
- Pay attention to the Sunlight to ensure that your plants get the right amount of light.
- Feed plants regularly.
