DEFERRED SUBMITTALS AND PLAN REVISIONS

This form shall be completed by either the design professional of record or the permit applicant to appropriately process deferred submittal items or plan revision requests. Providing the following information will ensure an accurate and effective plan review in a timely manner. Missing or inaccurate information either within this document or the proposed construction drawings and any supporting documents may delay the review and approval process. The applicant shall make every effort to provide all necessary information before submittal.

Permit Number: _____ | Date: _____

Deferred Submittal:

Plan Revisions:

The following Summary of Changes Must be completed by the applicant prior to approval for plan revision or deferred submittals. Additionally, each sheet or revised plans shall clearly identify those changes on the plans with a distinguishable method as clouds.

Sheet No.	Summary of Changes

- Plan check review for plan check revisions and/or deferred submittal may incur additional plan check fees.
- Plan check turnaround time varies based on the type of submittal and the scope of each revision.
