Product Arrival on Site (Date / Time):	Product Departure from Site (Date / Time):
--	--

Location & Method of Storage on Site Prior to Display / Performance:

Method of Storage & Removal of Unused / Unexploded Product:

## CONDITIONS OF PERMIT APPROVAL

1. Provide a dimensional plot plan diagramming the area where the event will be held. Plot plan shall include the placement of devices and props as well as the location of operator's firing site, all performers, the audience, the perimeter of the secured fallout zone. The diagram shall include highways, overhead obstructions, trees, utility wires, and other pertinent objects in the immediate area. Changes to diagram require resubmittal.
2. All activities associate with the use, handling, storage, and transportation of fireworks / special effects shall be in accordance with the current California Health & Safety Code of Regulations Title 19.
3. Provide an operator with appropriate pyrotechnic license from the State of California to oversee the display identified on permit. A copy of the license shall be provided prior to the show, Pechanga Building & Safety Ordinance, and Pechanga Burn Ordinance.
4. This permit, along with valid identification and appropriate pyrotechnic license(s), shall be in the possession of the special effects operator and available for inspection by the Pechanga Fire Department at the event.
5. Provide security personnel to ensure pyrotechnic products are secure upon arrival through departure and the fallout zone is maintained for the duration of the event.
6. Store devices in a secure location protected from unauthorized access, damage, and ignition sources.
7. Prior to the discharge of fireworks / special effects, a safety meeting shall be conducted to discuss the planned events, safety precautions, and any concerns related to safe use of fireworks / special effects with the cast, crew, and Pechanga Fire Department.
8. Provide at least two 2 1/2 gallon pressurized water fire extinguishers or two 2A:40B:C fire extinguishers where visible and readily accessible with no more than 30 feet of travel distance.
9. Provide a copy of the California State Fire Marshal flame certificates for all stage scenery, sets, displays, curtains, and any other materials within the pyrotechnics display or fallout area. If the performers are on stage during the display, materials / costumes worn by performers are to be flame retardant. Lighting, rigging, and other materials may also require flame certifications depending on the hazards presented. For temporary show, the flame certificates shall be available on site. If a California State Fire Marshal flame proof certificate is not provided, a sample of the material or product must be submitted to the Pechanga Fire Department for fire testing. If at any time it is determined that the material or product is not fire retardant, the materials shall be removed prior to show opening.
10. Fire Safety Officer / Fire Marshal shall be present during each display / performance. Schedule FSO with Pechanga Fire Department (951-770-6045).
11. Schedule fire alarm monitoring to prevent nuisance fire alarm activations during event. Submit DPS FIRE ALARM MONITORING REQUEST form to PRC Dispatch at least 48 hours prior to the event. Fire alarm monitoring shall be verified prior to firing any device. (Form attached).
12. Insurance shall be in accordance with the Pechanga Fire Safey Ordinance, California Health & Safety Code and California Code of Regulations Title 19, Chapter 6 for public displays of dangerous fireworks. Provide insurance certificate, naming the pyrotechnic operator overseeing / discharging the display along with Pechanga Fire Department, Pechanga Resort & Casino, and Pechanga Tribal Government, their officers, agents, employees, and servants as additional insured.
13. Notify PRC Dispatch (951-770-2610) and Fire Marshal (951-764-2050) upon arrival of fireworks at Pechanga Resort & Casino. Vehicle used for transportation of pyrotechnics shall have proper placarding and shipping documentation.
14. Any accident, injury, death, fire, or other emergency resposnes resulting from the discharge of fireworks, special effects, or pyrotechnics devices shall be immediately reported to the Pechanga Fire Department and California State Fire Marshal.
15. All unfired and unexploded pyrotechnics shall be properly secured and removed from the property immediately following the display.
16. Additional requirements may be identified at time of inspection. Final permit approval is subject to results of pre-show inspection. Any use of fireworks or special effects may be suspended or modified at the discretion of the fire official on site.

By signing this application, I certify that all of the information I have provided is correct, and I have read the CONDITIONS OF APPROVAL above. I agree to comply with the CONDITIONS OF APPROVAL and all laws pertaining to pyrotechnic special effects adopted by the State of California, Riverside County, and Pechanga Indian Reservation. I understand that any false or misrepresented information provided and any violation of the conditions or laws may result in the immediate suspension or revocation of this permit and may be reported to the California State Fire Marshal. Approval of this permit is valid only for the permittee, event, location, date, and time specified on this application.
